Configuration options

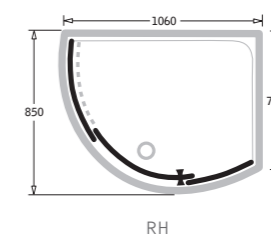

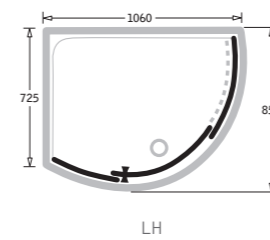

Model RCC900

Single off-set door slides behind panel.
Entrance: 495mm

Model REC1100

Single off-set door slides behind panel.
Entrance: 470mm

Features: Clean design lines for an open feel to family bathrooms • Superb glide and guide system allowing glass door to slide effortlessly behind glass panel • Gentle, sympathetic curves with concealed fixings • REC1100 ideal for small bathrooms and where replacing an existing bath • Solid brass, chrome plated handles • Offset door • Tested for power showers • Adjusts to out-of-plumb walls • Part-assembled for quick and easy installation • Dedicated shower tray in any bathroom colour included in price • Supplied complete with Fastflow chrome top access shower waste.

RCC900 Raised tray option

The raised trays are constructed using a unique localised toughening process to reinforce the standing area and provide a rock solid base.

The raised tray concept allows the waste pipe to run in any direction, giving greater flexibility for shower location.

Raised tray adds 103mm to height.

A removable front panel allows easy access to the plumbing. The sculptured lip conceals variations in height and makes a decorative styling line.

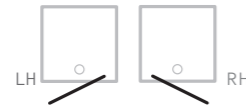

Adjustable legs with moulded feet mean the tray can be raised and levelled for a perfect installation every time.

Bath Shield Clasp and Running Rail in Celtic Silver.

Towel rail, for added rigidity, shown here in Celtic Silver.

Use the dimensions shown to decide which Matki Bath Shield is the right one for your bathroom. Corner baths are generally larger than flat top standard shaped baths. Cut running rail to size during installation. Shower curtain and hooks not included.
