ADD AN ELEGANT HIGHLIGHT TO
YOUR BATHROOM.

A work of art in its own right, Amera creates an exciting combination of glass and water. As the crystal panel captures colourful reflections and brilliant contrasts, the integral fittings and components ensure pure and reliable showering pleasure at all times.

Relax, everything is under control

The combination of a handshower, a cylindrically shaped head shower and four large side showers leaves nothing to be desired. Simply select the desired water temperature and leave the rest to the built-in thermostat while you use the convenient Aquadimmer to control the water volume and the varied combinations of the shower heads.

Clear lines, contemporary shapes.
Engineered to last and made from high-quality materials, Amera is a stylish addition to any contemporary bathroom.

- 1 Crystal panel
- 2 Aquadimmer
- 3 Thermostat
- 4 Side shower
